We pity the family that does not have them in abundance, and early ones, too. Nature seems to have made them on purpose to meet a demand of the system in early summer; and we have known many cases of invalids being greatly improved by their free use. Wilson, the ornithologist, was once ordered, by an Indian doctor, to live on strawberries, in order to cure an obstinate dysentery; and, to his surprise, he was cured in less than a week.—Herald of Health.

An idle man is an excrescence on

community and a ruin to his family, and an idle woman i as bad, describable incompleteness indicating the lack of a mistress who takes an interest in her household, If the servants are of raw material, then the looseness is anything but vague. Neglect is written on every window and wall. However luxurious the furnishings, there are dust and mildew, dents and rents, moth holes, and stains, giving them a look of poverty and decay. Care and repair are unknown; pins are substituted for stitches and for nails, as may happen, if indeed there be any attempt to conceal ragged edges. These idle-handed women are generally idle throughout. They do not think, or study, or even read anything requiring the least brain effort. They are just simply and hopelessly idle, dreamy, purposeless, shittless creatures who may perhaps be interested now and tlien in a sensational novel, or dawdle through a piece of fancy work, but who never do anything more of value than this. They soon forget the little that was pounded in them, never draw, they never do anything but to contrive somehow to

DAIN in the right side, under the edge of the ribs, increases on pressure sometimes the pain is in the left side; the patient is rarely able to he on the left side; sometimes the pain is felt under the shoulder-blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet ie can scarcely enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed. yet examination of the body, after death, has shown the LIVER to have been ex-

tensively deranged. AGUE AND FEVER. Dr. C. MCLane's Liver Pills, in CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them A FAIR TRIAL.

They as ascribed to the war between Germany sort that efforts make by Conkling men to secure southern votes, that being supposed to be the most vulnerable quarter, have failed, and that the delegates from that section, colored and white, remain as yet faithful to those whom they were pledged to support. The chief reliance of Morton is on acpessions which it is believed will come to him from Blaine men in the northwest and northeast. Should it be found that the latter could not be nominated, it is claimed one third of Iowa, a portion of Wisconsin, a share of Michthe Emperor preferred to walk. The ign and a pretty full vote from Maine will go to Morten, when Blaine drops out. The number to be thus obtained from Illinois is not as large as has been 'claimed by some. Colonel Ingersoll and some five others will probably make up all that can be obtained from that Morton to the bitter end, and have no

The convention will be called to order by Governor Morgan, of New Yook, chairman of the national central committee, who will make a brief address, not exceeding five minutes in length. Then resolutions, &c., will be appointed, and with the report of the former the Alabamba case will come up. .It is prosince none of its members will vote for enemy, and since the friends of each of these candidates above parced bone my brothron, the snowjest shirt front for strength from the Spencer delegation, may conceal an aching bosom, and the which they cleim as a shadow more of

Bristow men are making claims that on the second formal ballet, their candidate will have 200 votes. They say that instead of two votes formerly allowed Bristow in Illinois, he will have or two, nearly all Maine will unite on him. They admit, that as yet, their force is chiefly made up of scatterers, of a few delegates from each state, but they claim that these will stand firm.

It was stated at the meeting that a Missouri delegate had said that with Blaine out of the way, a majority of delegates would go over to Hayes and a number to Merton. HOLD BUT FRUITLESS ROB-BERIES.

Last night the residence of Dr I B Curtis, on West William street, was entered by robbers, and several rooms Par Dathy Barnstican will be deliverwere thoroughly ransacked, but no booty of any account was secured

This morning when the Doctor awoke he missed his coat and yest from where he left them last night, and some other articles of clothing were gene. Upon going to the door the coat and vest, with other acticles, were seen laying in the bont yaid, under the trees, described with rain. In the coat packer was a large pocket book, in which the Dictor carries has pap us, which had been taken from its place and 'gone through," and lay with the papers scattered about new the clothing

The robber or robbers also entered Frank Curtis' room, and took his coat, pants and vest, and made a thorough search of them, leaving them also in

The Doctor's pants, containing his money wallet with about forty dollars in it, were not disturbed, neither was his watch. Frank also had a gold watch in his room, which the robbers failed to

A good many other things were overhauled, but nothing was taken away except two silver dimes, which were in the large pocket book, being pocket-pieces, which had been carried by the Doctor

Previous to entering the house the in vaders provided themselves with a big club from a lumber pile in the back yard. The entrance was effected by forcing open a shutter of one of the sitting room windows, which was left up, and from tracks visible outside under the window, it appears that the person who entered the house was barefooted. It is very evident that the robber was well acquainted with the house, as clos ets were opened and ransacked, and all the rooms in the lower part of the house that were not locked were thoroughly gone through. The doors to the upstairs rooms were all locked, so that nothing was disturbed there.

Among other things taken from the Doctor's pockets, were two bunches of keys, which were thrown under a bur dock leaf near the gato.

It would seem from the above that the fellows got rather poor pay for their time and labor, and the risk taken in entering the house. This is another occurrence which warns people to secure

This morning as Esq Goodman was coming down town, in passing the residence of Mr. McReynolds, on North Main street, he noticed some gentlman's clothing lying in the front yard. Thinking that all was not right, he stepped to the door and awoke Mr. M, who was still sleeping, and asked him if he left his clothes in the front yard last night when he went to bed?

This strange inquiry brought the astonished gentleman to the door, where, sure enough, he saw the clothes he took off last night and left near his bed upon retiring. A glance about the room disclosed the fact that some intruder had been there and given things a general stirring up, taking the clothing named and some other articles into the yard for the purpose of going through them. As good luck would have it, there was no money or other valuables about the
